The Five Islands Estate aims to build a select community of like-minded residents who value the seclusion, privacy and security it offers. The estate achieves this by offering plot sizes between 1200 to 3000 square metres, making it a low density community with 24 hour security.

Designed as an island getaway, the Five Islands Estate is only 40 minutes from Samui's private international airport which is served by direct flights from Bangkok, Singapore, Kuala Lumpur, New Delhi, Mumbai, Guangzhou and Hong Kong, thus making it incredibly well connected to many of Southern Asia's city hubs.

In addition to existing direct connections, airlines plan to offer direct flights from Shanghai, Dubai and Bali in the near future.
